THURSDAY, OCTOBER 20 1904.

### Mr. Talbot's Meeting

Angus Open House was crowded last Monday evening to hear Peter Talbot, the Liberal Candidate for the Strathcona Constituency, address the electors on the political questions of the hour.

A. R. Dickson president of the Liberal Association was chairman. In opening the meeting the chairman announced that Mr. Talbot would be the first speaker, then Mr. Leggie who was on the platform representing Mr. Dush, would be allowed an hour and Mr. Talbot would then reply.

Mr. Talbot was pleased to see such a large number present and especially the ladies. This showed that the progressive town of Wetaskiwin was taking an interest in the campaign. He first depicted a dispirited farm with poor buildings, fences down, everything going to ruin. This farm didn't pay. This had been going on for 38 years. Then a change of tenancy was made, and the farm was improved, the fences and buildings repaired, and was made a good paying investment. This had been going on for seven years, when the first tenant came along and wanted the second tenant first. This was the case now, the Conservative wanted the Liberals fired out of office.

Mr. Talbot then pointed out on charts the relative yearly increase from 1870 to 1903, in the imports and exports, total trade with Great Britain and other countries, the total shipping, the increase in railways in Canada, the railway traffic, the deposits by the people of Canada in chartered banks, and also the discounts, and showed how they had enormously increased during the past seven years, under the Liberal rule.

Mr. Talbot then explained his attitude regarding Provincial Autonomy. He desired that the matter be thoroughly discussed and satisfactory terms made before entering into such a contract. If proper terms could be made, we would be wiser off than at the present time, but if proper terms could be made we would be better off. In 1901 Walter Scott, member for East Assiniboia, drew the attention of Parliament to the fact.

The Territories must get control of the public lands, also they must get control of the timber limit and minerals. The Dominion Government had given away large grants of lands to aid railways, etc., in Ontario, Manitoba and B.C. and we must get compensation for these lands. The Conservatives gave exemption to the C.P.R. from taxes forever, and they must be compensated for. Mr. Talbot was prepared to uphold Mr. Scott's terms. The Conservatives wanted to get provincial Autonomy first and make terms after, but Mr. Talbot wanted terms made first.

Referring to the Tariff Mr. Talbot said the Conservatives favored a prohibition tariff or a tariff of 50 per cent. They call it adequate protection in the east. This would mean ruination to this country. Go to a country in the U.S. and ask the price of a stove. Suppose it to be \$25. With 50 per cent duty added the cost of the stove here would be \$37.50. A Canadian manufacturer could make the same stove for \$25, but knowing it could not be procured elsewhere for less than \$25, he raises his price to \$30. The manufacturers went to Ottawa and ask for a high tariff. They refused to share their price list with Mr. Fielding, Minister of Finance, but the Hon. Mr. Borden promised them adequate protection. High tariff would make the rich man richer and the poor poorer. At the present in the States, one tenth of the people have nine tenths of the money, while nine tenths of the people have one tenth the money.

The speaker then referred to the transcontinental railway. He pointed out the enormous cost of the C.P.R. received when they built their line of railway. He did not blame the C.P.R. for getting all they could from the Conservative government, but we could blame ourselves if they got another chance. If the C.P.R. got another grant we will all have to get out of the country. In Ontario, based on salt costs 9c, while in Lancashire it costs \$1.00. In Montana it costs from \$1.25 to \$1.50. Salt was free of duty. What caused the difference in price? In the U.S. they have given railroads here we have a gigantic monopoly, which does as it pleases. The present transcontinental line goes through Maine. What we want is a transcontinental line running from coast to coast on Canadian soil. If the Liberals are sustained, this line will be hurried through with all possible speed. The line will be divided into two divisions, from Montreal to Winnipeg and from Winnipeg to the coast, while the latter divided into two parts, The section from Montreal to Winnipeg

will be built by the government. They will borrow money at 3%, and will loan it to the G.T.P. for 5% of the cost. The speaker then took up the illustration. A man bought a typewriter for \$100 and borrowed money at 8% to pay for it. A tenant then offered him \$8, on his face meant for 30 years. In the meantime the farm increased in value. He would be with the proposed railroad. The government gets control of the rates and reserves the running rights for its own trains. The G.T.P. Co. built from Winnipeg to Port Simpson. The government guarantees bonds for three-fourths the cost of building the road west of Winnipeg. The company will pay the interest on this from the beginning, and therefore there will be no burden on the government, which takes a first mortgage on the line. The cost of the C.P.R. was \$25,000,000, and 25,000,000 acres of land were given a portion of the road which the government built at a cost of \$40,000,000. The C.P.R. was guaranteed no competing line for 20 years, and exemption from taxes for 20 years. The government had no control of the rates. The thirteen million which the government propose loaning will secure competition, give control of rates, and ensure cheaper transportation. If the bargain made between the government and the G.T.P. is not ratified, Mr. Borden will tear it up, and compensate the survivors for their labor. If the government is sustained, 30,000 men will be employed next spring and the road will be completed as quickly as possible. This will create the greatest boom the country has ever had and will furnish a market for all our products until the line is completed, when we will have access to the western markets. The speaker said Mr. Borden had not committed himself to anything. Mr. Borden proposed to use the Intercolonial, but the speaker objected to the proposition as it would not compel the C.P.R. to reduce their rates, and also because the Intercolonial has sharp curves and high grades, which were not suitable for a transcontinental line. Borden and Oiler did not want the G.T.P. south of the Saskatchewan, as it would compete with the C.P.R.; we want it south so we will get competition. If the G.T.P. was operated by the government, it would be managed by persons with "political pull" who would be appointed regardless of ability. The government cannot operate the railway as cheaply as a company can. Sir John A. MacDonald, Sir Charles Tupper, Sir McKenzie Bowell and Hon. John Haggart, all Conservative leaders were opposed to government ownership of railways. Mr. Borden said the road would be operated by a company, and the speaker thought that company would be the C.P.R. Mr. Leggie then addressed the meeting for an hour, dwelling mainly on the government ownership and operation of railways in other countries. He referred to Australia, New Zealand, Belgium and other countries. The total mileage owned by private companies was 57,000, while the mileage of government owned roads was 112,000. He also quoted figures giving the profits and dividends of the companies.

Upon resuming his address Mr. Talbot referred to the active immigration policy of the present government, and also to the tariff. They had reduced the duty on twine, wire and other staples and raised it on silks. They altered the homestead regulations to aid the settler. They established Government Creameries. The initial creamery distributed \$40,000 among the farmers last season. They abolished the cattle quarantine, and now at least are allowed to bring their stock into the country without delay. They reduced the postal rates from 3c. to 2c. They passed a hinder twine act, and now the farmer does not get a shorter age in the length of his ball of twine. They encouraged the sugar beet industry, and assisted Knight to become established at Raymond. They aided the farmer in the west to procure good seed grain. They are endeavoring to force the C.P.R. to pay taxes on the land which the Conservative Government gave it.

Mr. Talbot said it was a question of railway or no railway. He felt that there was a scheme by the C.P.R. to hold the west as a province for themselves. The company will fish around and do all they possibly can to have no competition. If the government is sustained the road will be commenced at once, the government will have control of the rates and a good market will be furnished for all the products the west can raise.

Mr. Talbot said in closing if he had the honor of being elected, he would do all he could to stand up for the rights of the west as well as the rights of the Strathcona Constituency.

### Olds Robber Fully Identified

Petter, who was arrested as a vagrant near Portal, and who was on his release from the Regina jail re-arrested on suspicion of being the Olds post office robber, was taken to Olds Monday morning for his preliminary trial.

Inspector Duffus presided over the court. Petter was charged on two charges, one for breaking into Mr. Walker's house, not far from Didsbury, and the other for breaking open the safe in the Olds post office. Petter has been fully identified.

\*Ask for Adams Transfer.

Wetaskiwin Fair to-morrow, Friday.

G. M. Mayberry went to Edmonton Wednesday on business.

M. E. O'Brien made a professional trip to Edmonton Wednesday evening.

Sackville West arrived home from Vancouver on Tuesday to renew acquaintances.

Stewart's Comic Players will present "U and I" in August Opera House this Thursday evening.

Owing to a conflict of dates the Mr. Plaster of Paris Co. have cancelled their engagement here for Saturday evening.

The Supreme court opens in Edmonton on November 8th. Fort Saskatchewan, November 25, and Wetaskiwin, December 6.

A. Chidler's sale, which was postponed owing to the inclemency of the weather, will be held on Tuesday, October 25th.

Dr. and Mrs. Clint of Winnipeg, who have been visiting at the home of their daughter, Mrs. T. G. Breen, left on Monday's train for home.

Allan McCulloch, who formerly conducted the Queens Hotel, but sold out and moved with his family to Washington, arrived in town last week to renew acquaintances.

W. Pittman was at Calgary last week and secured a situation as locomotive fireman with the C. P. R. "Billy" is the track twirler for the Wetaskiwin Baseball Club and will be greatly missed by the boys.

Soanes Bros. lakers dissolved partnership last week. S. A. Soanes will carry on the business, while S. M. Soanes returned on Monday to Kingston, Ont., where he has secured employment. The west did not agree with him.

Among the teachers who are attending the convention at Ponoka this Thursday and Friday are Misses Bearstar, Brown, Burger, Major and Morson, and Messrs. Thibault and Quinlan, of town, and Messrs. Brackenridge, Miller, and Spurr, of the district.

The Edmonton Journal of Wednesday publishes the following:—Mr. Ben Fortin, a wealthy rancher from near Wetaskiwin, is in the city to day. He is accompanied by Andrew Olson, a rancher of the same place, and F. H. Daniels, a real estate agent of Wetaskiwin.

Herald: It is currently reported that it is the intention of the C. P. R. to erect a roundhouse at Ponoka where they will keep the engines with which the spur lines from Wetaskiwin and Lacombe will be operated. This is to be done on account of the supply of water at this place which the company cannot secure at either of the above towns.

In our advertising columns last week appeared an advt. in which there was an error. We refer to the advt. over the name of Bush & Bearstar. Owing to a misunderstanding, the firm name appeared, but we have since been informed that no partnership exists between the two gentlemen as Mr. Bearstar only supplies Mr. Bush with stock, and has no interest whatever in the meat shop. We are glad to make this correction.

Messrs. Driscoll and McQuillan, the young men who have been looking over this district for some time, as delegates for a large Beer party, now participating in the attractions at St. Louis, went south on Tuesday's train. They inspected the country both east and west of Wetaskiwin thoroughly and are well satisfied with what they saw, and upon their return to St. Louis will recommend that the colony locate in the vicinity of Wetaskiwin. This colony will consist of at least fifty families.
